

Dear Student,

It's one week until you join Digital Pathways!!! We hope you are as excited as we are to meet you for the next phase of your academic journey.

As you get ready, here are some study tips you can make use of:

[IMPORTANT] Registration Form: If you have not already, please complete your registration form as soon as possible. This is essential for a smooth start. You can access the form from this link https://kicpathways.formstack.com/forms/kaplan_pathways_digital_registration_form

1. Set Goals: Working to achieve your progression requirements is always a great place to start. You can create a vision board if possible to keep you reminded of the joyful end goal of progressing into the university of your choice. Here's an example below. Click [here](#) to learn how to create yours.

2. Consistency: Creating a personal schedule and allocating time for reading/studying is most effective when you commit to it and ensure you obtain a healthy amount of sleep.

3. Active Participation: Participating in class activities helps you learn better, take effective notes, and the college's various sessions and activities improve your learning.

4. Stay organised: Studying in a calm, well-organized setting promotes relaxation and effective learning. You will study more comfortably if your workspace and schedule are more organized.

5. Connect with peers: When working on group projects or in break out rooms, it is essential to engage with and learn from your peers. Collaborative learning through projects and peer discussions is a more effective way for students to grasp concepts compared to alternative methods.

6. Seek Help: Asking your tutors and/or learning advisors for assistance is advised when you are having trouble understanding a concept or when there is a particularly difficult section of your study. To ensure that you receive the best support possible, please let us know if anything is affecting your learning.

7. Feedback and Reflections: For the purpose of improving your overall learning experience and your comprehension of study material, it is imperative that you pay close attention to your tutor's feedback and consider how to enhance your performance. Their feedback is crucial for your learning.

We recognize that every student has their unique learning strategies and abilities. It's important to remain adaptable with your plans and make adjustments as necessary to find the approach that suits you best. You are encouraged to modify the recommendations to better align with your preferences and requirements.

As you prepare for **welcome week starting 23rd October**, if you have any questions or need assistance, please do not hesitate to reach out to us via the [Virtual Reception](#) or by emailing us at digitalpathwayscollegeservices@kaplan.com. If you missed our previous emails, you could access [Week 1](#), [Week 2](#) and [Week 3](#).

Kindly note that your welcome week schedule would be sent to you on **Thursday, 19th October 2023**.

Do have a great week!

Kind Regards,

College Services Team
